

EDITORIAL NOTE

First and foremost, what an absolute joy to see vision come to fruition. Very rarely does one see a school having its own journal, but now with this publication of the very first issue of 'Royal Messenger' the 'rare' is going to take the form of a 'norm' for Royal Academy. Cheers to that!!

So, you might ask.... what is the significance of issuing a journal for a school and with what aim does a school took the trouble of publishing it? Well, the simple answer is growth. Journals by definition are records of what have been done, or records of descriptions or thoughts written each day or frequently over a period of time. For the school this will serve as a record book that keeps track of the events and happenings which are related to the school, a mirror that reflects the image of the school which will in-turn helps in shaping the future of the school. But more than that, it is the opportunity that 'Royal Messenger' will open for the students to explore their gifts and talents in-terms of creative arts that excites us. This will help in the development of skills of those students who have the talent and will to grow creatively by expressing their thoughts and views through the medium of writing, sketching, etc. and putting it out there for people to see which they might not be able to do otherwise. This development of skills will in-turn helps in the development of personality and character of the students and make them confident individuals who have the guts to strive through hardships to become the best versions of themselves. As an institution of learning and growing that is our hope and dream through Royal Messenger. May the odds be in our favour.

'MY SCHOOL BUS' LAMDOULIAN, CLASS V.

HOW IT ALL STARTED

Based on the Bible Verse Genesis 21:16 "Let me not look on the death of the child." Royal Academy was founded on the 7th of April 1989 by Late Kamkhanthang Ngaihte. He was a man who thirst for education and sympathised children who could not afford proper education and care.

The school started off in a small thatched roof house with 85 students from Nursery to Class- VII (monthly fee was minimal and 12 students were also redeemed from payment of tuition fees immediately). Its mission is to Raise, Educate, Shape and Prepare students for securing their livelihood. By the Lord's guidance, the school got its recognition under Board of Secondary Education Manipur in the year 1996.

Royal Academy has its ups and down as it aged but beating all the odds by God's grace it is always blessed with wonderful students who love, care and are proud of their school. It is also blessed with amazing teachers who play a significant role like a parent for the children in the academy. It still upholds its Mission and Values until today and always believe for a better tomorrow.

MY SCHOOL

My school, My school,
So beautiful and so cool
Our teachers are wonderful!
They give us knowledge and love

My school is simple,
But to me she is the best
I will only be a fool,
If I don't miss my School.

My teachers are great,
They aren't cruel
Attention I always pay,
So, I've never been detained.

My school, My school,
So beautiful and so cool
I go with my bag,
And a smile on my face!

PRELUDE FOR THE FAMILY

It is indeed a humble step we take today to do our bits as Teachers, Friends and colleague of the Royal Family on starting this Messenger for all. We are also very proud for the little contributions everyone gave with optimism for what's to come. Our intent with this Messenger is to build an ever greater bond among all the students (present and past) Teachers, Staff, Parents and all well-wishers who is involve in this precious cocoon-like family we have. This shall be a platform for all especially the students to learn, share and improve our writing skills, storytelling, poetry, lyrics and arts by learning to express using our original ideas in projecting our views, perspective, choice, critical thinking and even questions and doubts.

I also take this opportunity to invite our past students and parents and would appreciate deeply if you could be an active participants in contributing your bits in this movement to improve building the Academy. I request one and all to help build each other grow and prosper in every bit we possibly can. We welcome every contribution long or short bitter and sweet. After all, there's nothing to lose in sharing on the process of learning and building.

Wishing the Editorial Board and the future of this Messenger a very good luck and all the very best for all the contributions to come. Thank You.

MY SCHOOL & MY TEACHERS

My school is my second home
It is the place where I learn
And the place where I discover many things.

My school is the best school.
My teachers teach us
And help us to become a responsible person in the future.

We respect our teachers,
We love our teachers,
We give them respect and they give us LOVE

Because of my teachers,
I will become a great person in life.
THANK YOU TEACHERS!
