

ON BEING POLITE

We should value politeness. As a student we need to know when to use polite words such as 'please' 'thank you' 'excuse me' and 'I'm sorry'. These words show respect and consideration for the people around us. It also helps us deal with other people easily and smoothly. It helps us get on with strangers and it helps us get what we want.

Here are some quick tips to help:

1. Don't make orders. Learn how to use "Can/Could/Would you help me in doing this, please?"
2. Ask for permission. We should learn how to use more polite words like "may/might".
3. Learn how to use the 'magic words' such as
 - a) Please- when we want something
 - b) Thank you- when we receive something
 - c) Sorry- when we cause inconvenience, do something wrong or can't help someone
 - d) Excuse me- when we interrupt someone or want to ask a stranger questions.

Being a polite person and learning how to use polite phrases will take you far in your journey in life.

A GREAT TEACHER

A teacher is a person who teaches especially in school. Anyone can be a teacher but not a great teacher. Teaching is not a cup of tea for everyone. Not every educated and knowledgeable person is a great teacher.

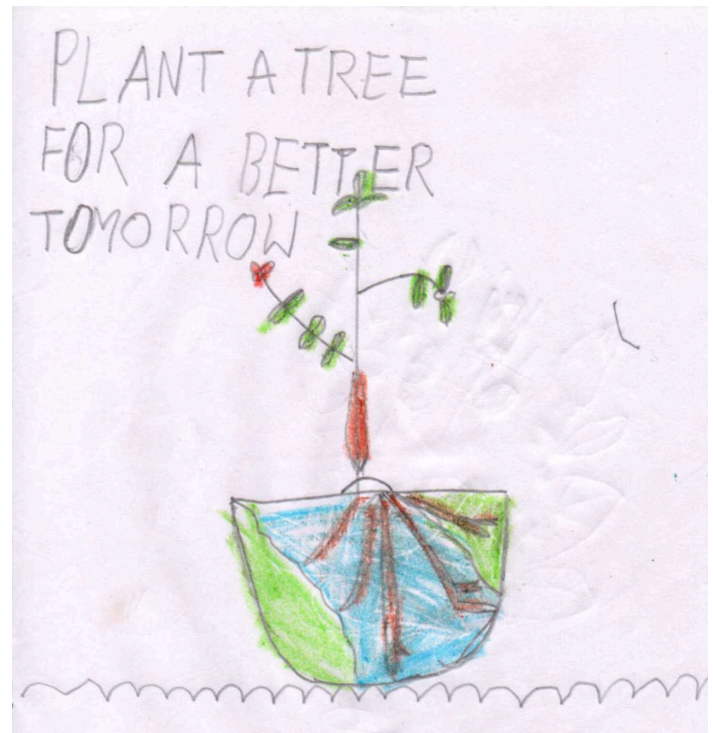

A great teacher needs a heart slightly bigger than the average human heart. We must always care for our children even outside the classroom. We must be warm, accessible and caring. We should be approachable and friendly so that we can solve all the children's problems and troubles.

Knowledge and wisdom is not the only quality enough to become a great teacher. A smile on our face, the love that we give and our priority in making difference in children's life are the things that differentiate a great teacher from a mere teacher. We

must instil good values and lead by example in the way we act, speak and behave.

OUR REACTIONS ON ROYAL ACADEMY

We would like to take this opportunity to thank the School authority for giving us the opportunity to have interaction with your precious student under our short Teacher's Exchange Programme.

All the staff were co-operative, open-minded/hospitable and courteous. We feel at home and ease during our stay in the school. We will never forget their friendliness and warm co-operation.

Most of the students were cooperative, promising and obedient so far.

The school surroundings natural environment is healthy and comfortable and relaxing.

THE BEAUTY OF FRIENDSHIP

Friendship is a priceless gift,
It cannot be bought or sold;
But its value is far greater
than a mountain made of gold.
For gold is cold and lifeless,
It can neither see nor hear;
And in times of trouble,
It is helpless to cheer.
It has no ear to lend,
Nor a heart to feel.
So when you ask God for a gifts,
Be grateful if he sends...
Not diamonds, pearls or riches
But the love of a real true friend.

TEACHER AS A PROFESSION

I am surrounded by children throughout the day.
My days start at 9 in the morning and ends by 2:30 in the afternoon.

They say walking into a class of students feels like walking into a zoo; where one sees different kind of creatures. That's the beauty of being a teacher.

As a teacher, I'd love my students to be well disciplined and love to see them always with a smile on their face. I really appreciate them when they do their task on time.

I love and enjoy being a teacher. We receive so much love and much to learn from our students too. Few says that teachers as a profession is a stagnant career, but I am glad I chose this profession for it is one of the most noble profession.

"A teacher is like a candle which burns itself to give light to others"

ITS FUNNY

Teacher: Why are you late?

Student: I am late because of the sign on the road.

Teacher: What type of sign?

Student: The sign that says, "SCHOOL AHEAD, GO SLOWLY!"
